HEAVY ATTACKS MADE BY BRITISH

American Tank Forces Take Part In Some Of Attacks On Friday

By W. P. SAPHIRE

CAIRO, Sept. 5.—Axis desert forces, heavily attacked by Allied armored units and pounded by the British eighth army's artillery, have withdrawn for the third time in the El Alamein corridor, the British Middle East high command announced today.

In savage fighting along the narrow battlefield between the Mediterranean and the salt marshes of the Quattara depression, Allied troops inflicted heavy casualties on the enemy, particularly among Axis infantry.

The main forces under Nazi Field Marshal Erwin Rommel fell back in the southern sector of the front, in the area of Rocky Qaret El Himeimat, the middle east headquarters of the British army said in its daily communique. The westward withdrawal was acknowledged to be "slight."

It was indicated that the Axis forces also retreated in the central sector, where it was officially announced that "our troops attacked enemy positions to the southwest and gained their objective."

Axis Driven Back

In three savage counter-attacks yesterday, the Germans sought by infantry and armored forces to recapture positions taken by the allies the night before, but land

PA NEW OBSERVES

We nominate the man who stole a Selective Service man's lunch as today's meanest thief. It happened this morning at the Pennsylvania R. R. station. The box was the last one remaining to be given out by the Selective Service Board to the men departing, and when Secretary Clarence S. Jarrett went to get it, it was gone. As a result, the man going away will probably have a bitter memory of his departure for the service.

New Castle and Lawrence county will quietly observe Labor Day, no special program having been arranged for this year due to wartime conditions. Cascade Park will probably have a large crowd of local folks for the day, as there will be no large scale migration from the city for the day or week-end.

New Castle and Lawrence county residents are being urged to aid in the drive for more scrap metal. The city and county did nobly in

President's Labor Day Inflation Control Speech To Cause Controversy

By WILLIAM THEIS
(U. S. Staff Correspondent)

WASHINGTON, Sept. 5.—President Roosevelt's Labor Day inflation control message, claiming the Chief Executive's complete attention over the week-end, today was expected to touch off one of the hottest congressional battles of his administration.

The controversy was indicated by disclosure that his Monday message to Congress would request amendment of the price control law to permit fixing of farm prices below 110 per cent of parity. Firmly opposed to any such change, the powerful House farm bloc has served warning that it will fight any tampering with the parity structure.

Mr. Roosevelt's reported intention to set up an economic authority board to administer his program for control of wages and farm prices, possible appointment of an "economic czar" and other potentials, observers were convinced, would spawn no opposition comparable to that of the parity issue. Congress was deadlocked for months on parity earlier this summer.

While the White House remained silent on the inflation message to Congress and the "Fireside Chat" which will follow Monday night, there was wide speculation and numerous information "leaks" on what the program would contain.

That some of the projected plans might be scrapped at the last minute was a definite possibility. But there were indications from the reactions of farm and labor leaders who conferred with the President that he was whipping his program together with a firm hand.

Speculation was that President Roosevelt may appoint New York's outgoing Gov. Herbert Lehman or Supreme Court Justice William O. Douglas as the "economic czar."

Plan To Offset Blackout Jitters

(U. S. Staff Correspondent)

PITTSBURGH, Sept. 5.—To offset "blackout jitters", caused by phony reports of an impending air raid test, Allegheny County Council of Defense Chairman Ross L. Feffer made it clear today that no drills will take place without advance newspaper and radio warning.

Leffer explained that the public will be informed that a test is scheduled within a week or two-week period, but will not be advised of the exact time beforehand. In that way, he said, completely unheralded blackouts will be eliminated. The defense chief took occasion to score the rumor-mongers responsible for spreading the fake reports.

NEW HOUSING PROJECTS

International News Service
PITTSBURGH, Sept. 5.—The Allegheny County Housing Authority boosted its war-housing program above the \$25,000,000 mark today by adding four more projects to the 18 already completed or launched. The new units will be located in Stowe township, West Homestead, Mifflin township and Versailles township. The projects will cost a total of \$4,800,000, and will provide 1,200 units for almost 6,200 war workers.

Bombers Stage Bremen Attack During Night

Anglo-Soviet Air Raids Also Hit Vienna, Budapest And Elsewhere

NAZIS ATTEMPT RAID ON LONDON

Biggest Attack By R. A. F. Is Made On Large Seaport Of Bremen

By LEO V. DOLAN
(U. S. Staff Correspondent)

LONDON, Sept. 5.—Nazi Germany's attempt to retaliate for wide-spread Anglo-Soviet air raids which again blasted Bremen and carried the war to Vienna, Budapest and elsewhere in eastern Europe brought a few bombs to London today.

For the first time in many weeks, there was a real semblance of air raid activities in this city which two years ago survived the most devastating aerial onslaught in history.

The 594th air alert London has known sounded shortly before noon and there was spirited anti-aircraft fire.

Shell bursts were clearly seen in several London areas as the city's anti-plane defenses went into action. In one district policemen herded women and children into shelters while the gunfire lasted.

From the "home counties" just outside of the London lines came reports of a single "hit and run" Nazi raider which dropped bombs on an undisclosed town.

The London alert was of brief duration.

Keep Up Raids On Germany

Even as the "all clear" sounded, vast new squadrons of Royal Air Force planes roared out over the English Channel to follow up the blistering raid carried out against the large German seaport of Bremen during the night in which a strong force of between 200 and 300 bombers participated.

No sooner had the bomber squadrons returned from their devastating

Camden Will Close Schools During Winter

(International News Service)

CAMDEN, N. J., Sept. 5.—In what was hoped would set a precedent among eastern seaboard communities, Camden's board of education today decided to close all its public schools during January and February to save fuel oil.

The city's 18,000 pupils will attend classes six days a week instead of five during the other months of the term, it was announced. School will open next Wednesday and close on June 18 as scheduled.

"I believe it is the duty of the Camden board to show the way for all communities, especially those on the eastern seaboard, where a shortage of fuel oil will probably occur," said Dr. Ogden A. Lang, board president.

U. S. Courage Is Shown In Pacific

(International News Service)

WASHINGTON, Sept. 5.—American courage is being called upon to make up a deficit in numbers and quality of aircraft in the Pacific war theater, Rep. Eugene Worley (D-Texas) declared today on the basis of his observations during eight months' active duty with the Navy.

"No one in the world can match our soldiers, sailors and marines for courage, but the Navy almost invariably has had to overcome odds in fighter planes in the Pacific."

"I'm back in congress now, and what I'm determined to do is see that those boys get some equipment that will put them on even terms."

AREST 142 MORE ALIEN ENEMIES

(International News Service)

NEW YORK, Sept. 5.—P. E. Foxworth, director of the FBI in New York, announced today the arrest of 142 more enemy aliens, five of them members of the Nazi party in Germany, bringing to 1,802 the number taken into custody in eastern and southern New York state since Pearl Harbor.

High School Hours Are Set

Sessions To Open At 8:30 A. M. And Close At 3:12 P. M. This Year

ONE SESSION BEING RESTORED

New Castle's Senior High school not only resume sessions on Wednesday morning, September 9, but it goes back to a one-session day, the first time in several years. Superintendent Frank L. Burton said today that the classes in senior high will open at 8:30 a. m. and close at 3:12 p. m. These hours have been selected in order to assist in the transportation problem which confronts the city.

Superintendent Burton today reminded parents that children who are just beginning school must be vaccinated before they can enter. He also reminded them that it is highly desirable that the youngsters produce birth certificates on their opening day. When birth certificates are not produced, the child will be

Accident Victim Dies In Hospital

Miss Laura Willis, Of Youngstown, Succumbs From Auto Injuries

Injuries received early Friday morning, when an automobile in which she was a passenger, crashed into the Rose Point bridge on Route 422, resulted in the death in the Jameson Memorial hospital of Miss Laura Willis, of 3228 Northwood avenue, Youngstown, at 6:50 o'clock this morning.

Miss Willis was a passenger in the car of Carl Madison, which was traveling east on Route 422, when the car skidded on the highway, which had been made slippery by a light rain. She sustained compound fractures of both legs, a broken arm, and internal injuries.

Her body was removed to Youngstown for burial this morning.

Allied Bombers Hit Jap Cruiser

(International News Service)

GEN. MACARTHUR'S HEADQUARTERS, in Australia, Sept. 5.—Allied medium bombers, operating southwest of New Guinea, attacked a Japanese cruiser with unknown results, a communique from Gen. Douglas MacArthur's headquarters announced today.

Action in other areas was limited to reconnaissance, the communique added.

The attack may have been in the vicinity of Timor, where the enemy has established bases.

"Berlin reports today said the Japanese have been putting landing parties ashore in the Sunda Islands which lie west of Timor."

Mayor Hague Faces Huge Damage Suit

(International News Service)

DEAL, N. J., Sept. 5.—Mayor Frank Hague today was defendant in a \$2,000,000 damage suit after papers were served on him as he reached the thirtieth hole on a local golf course.

The suit, a libel action, was brought by John Warren, political foe of Hague and stems from the recent battle between the Jersey City mayor and governor Charles Edison, of New Jersey, on the railroad tax issue.

Seeking \$500,000 each on four separate charges, Warren alleges that Hague had referred to him as a "tax racketeer" and a "tool of the railway lobby."

Large Group Of City Men Leaves

Men Inducted By Local Board One Depart For Camp This Morning

Another large group of men from the city, called up for army duty by Local Board One left for New Cumberland, Pa., to begin their service for their country this morning, departing over the Pennsylvania railroad at an early hour.

There was a large crowd of relatives and friends present to bid them farewell, and the customary ceremony was conducted by the Lawrence County Service Men's Aid association. Sam Edelman presided and introduced Leo E. Turitz, who addressed the men briefly. The band, conducted by Miss Christine Gianotti, was on hand, as well as the women of the First Aid Corps from the Lawrence county chapter, American Red Cross.

The group leaving this morning was the last of the city men called up in August, having received their physical examination at Erie on August 22, and have been at home for the past two weeks for the two-week furlough customarily granted them.

China Will Never Desert Allies In War

By KINGSBURY SMITH
(Staff Correspondent)

WASHINGTON, Sept. 5.—Assurances that China will "never desert her allies" or stop fighting until victory has been won, were given today by Dr. Hu Shih, retiring Chinese ambassador to the United States.

In an exclusive interview intended as a farewell message to the American people, the Chinese envoy, who for the past four years has been one of the most popular members of the diplomatic corps in Washington, said:

"I hope the American people will always bear in mind that my people have fought in this war the longest and suffered the most. If my people should show signs of impatience or anxiety, I hope it will be understandable."

"I can assure the American people that my people will never desert their allies, and will never stop fighting until victory has been won."

"I also firmly believe that when the war is over the Chinese people will be one of the great forces for world peace."

Pinball Games Banned In Clubs Also Slot Machines

(International News Service)

PITTSBURGH, Sept. 5.—Club operators in Allegheny county received an unpleasant surprise today—one that hurt painfully in the region of the pocketbook—when District Attorney Russell H. Adams banned all pinball games and slot machines from their establishments.

Adams told county detectives to confiscate all machines in any club which refused to obey his instructions. Previously, the clubs had escaped unscathed in the city-wide cleanup of the pinball machines and "one-armed bandits."

NEW THREAT AT NORVOROSISK SEEN

Germans Attempting To Land Troops At Black Sea Naval Base

By JAMES E. BROWN
(U. S. Staff Correspondent)

MOSCOW, Sept. 5.—With the all-out Nazi drive on Stalingrad officially reported checked for the time being at least, a grave new threat to the great Soviet Black Sea port and naval base of Novorossisk developed today.

German troop transports and naval vessels were reported attempting to land shock troops along the Black Sea coast near Novorossisk, terminus of the main Caucasian railway line from Baku in the oil fields.

The Soviet high command threw Stormovik dive-bombers into action in an effort to head off this new German thrust. These formidable craft, equipped with 75-millimeter guns capable of blasting even the heaviest tanks, caused havoc among the initial German landing parties. At least four barges dropped off

To Speed Trials Of Nazi Spy Aids

Six Indicted In Chicago, Ill.

All Are Charged With Having Aided Haupt, Executed Nazi Spy

BOND IS DENIED TO DEFENDANTS

(International News Service)
CHICAGO, Sept. 5.—Federal authorities today moved swiftly in their efforts to hasten trial of six Chicagoans who were indicted on treason charges yesterday in connection with alleged aid they gave the executed Nazi spy, Herbert Hans Haupt.

District Attorney J. Albert Woll announced he would seek arraignment of the sextet, including Hans Max and Erna Haupt, parents of the would-be saboteur, sometime next week, probably Wednesday. Meanwhile, the defendants, denied bond, were held in separate cells at Cook county jail.

The others who were indicted by the Federal grand jury following a long investigation and the testimony of numerous witnesses, were Mr. and Mrs. Walter Prossing, aunt and uncle of young Haupt, and Mr. and Mrs. Otto Richard Wergin, friends of the family.

All were placed under strict guard.

The indictments, which carry a possible death penalty, listed 41 overt acts by which the German-born but naturalized Americans aided the young Berlin-schooled saboteur.

defensive warfare was indicated by the recent capture of Japanese bases in the Solomons and by the way American forces have held these objectives against repeated Japanese counter-attacks.

The minimum of 1,500 Jap combat planes destroyed was based on Army and Navy communications and official statements. Conservative war analysts asserted this total actually may be nearer 1,800.

The majority of enemy planes were shot down in aerial combat in the Philippines, China and the southwest Pacific and in aerial attacks on Japanese aircraft carriers, although some enemy craft were shot down by anti-aircraft batteries afloat and on shore.

Many New Families Have Located Here

During the summer numerous families have come to New Castle from other cities to make their homes here. Nearly all have come either directly or indirectly as a result of industrial activity in New Castle.

Eight of the families have three or more children, three have two cars, nearly all have one; five have already bought homes here. Most have some church affiliation.

Joseph A. Hartman, who comes here from Franklin as the principal of Highland and Magill schools; Mrs. Hartman and their 16-year-old son have taken up residence at 418 East Leasure avenue.

George Wilson of the New Castle Refractories, Mrs. Wilson and their daughter, who are living at 131 East Edison avenue, formerly lived in East Liverpool, O.

From Ravabpunde, India, have come Mr. and Mrs. Charles A. Stewart, United Presbyterian missionaries to India, their two sons and a daughter, who are living at 1 East Leasure avenue.

In connection with Standard Steel Spring company have come: Mr. and Mrs. Palmer Bain and their four children. Formerly residents of Everson, Pa., they are living at 22 West North street. Another Standard Steel Spring family, who are newcomers to New Castle are Mr. and Mrs. Gilbert P. Dissen and their son who are from Pittsburgh, now making their home at 103 West Garrison avenue.

Pennsylvania railroad Trainmaster H. L. Kimble, from Harrisburg, with Mrs. Kimble and their daughter, are living at 201 East Winter avenue. Brakeman for the same railroad, Chester Peters, and Mrs. Peters, 718 Carlisle street, came here from York, Pa.

Mr. and Mrs. John L. Parker, 313 Rhodes Place, with their daughter and son, were residents of Upper Darby before coming to New Castle. Mr. Parker is a Pennsylvania R. R. assistant master mechanic.

Manager of Harbor Coal company N. O. Olson, Mrs. Olson and their three children are at home at 509 East Leasure avenue after moving here from Youngstown.

B. T. Miller, who is a cable splicer for the Bell Telephone company, Mrs. Miller and their son, from Greensburg, Pa., are living at 308 East Lincoln avenue.

Both a bride and a newcomer to New Castle is Mrs. David M. Taylor, whose home was formerly in Newport, R. I. Mr. Taylor, who lives in Mercer, Pa., is a chemist with Burton Explosive company. They are at home at 707 Wilmington avenue.

R. D. Keenan, inspector, Ellwood Forge company, and Mrs. Keenan have come recently from Huntington, L. I., N. Y. They are living at 431 Winter avenue.

Mr. and Mrs. Norman G. Hamilton and their eight-year-old son came here from Glendale, Mo., to 508 East Elizabeth street. Mr. Hamilton is a salesman for Columbia Mill, Inc.

Two families are former residents of Indiana. Mr. and Mrs. Ernest Drake, came here from Peru, Ind. Mr. Drake is connected with Seavy's Studio. Their new address is 119 East Wallace avenue, this city.

From Muncie, Ind., are Mr. and Mrs. J. Roy Love, who have taken one of the Penn apartments. They are one of the families brought here in connection with the United Engineering construction.

Others who have come in the interests of the same company include: Mr. and Mrs. John Broquist, 902 North Mercer street, from Melville, O.; Mr. and Mrs. E. Frank Strizel, Wilmington road, from Youngstown, O.; Mr. and Mrs. T. M. Love, 4 East Garfield avenue, from Vandergrift, Pa.; and Mrs. John J. Gallagher, 335 Berger Place, formerly of Lakewood, O.

Other United Engineering families are: Mr. and Mrs. Martin Cannon, living at 207 Meyer avenue, from Vandergrift, Pa.; and Mrs. Harold J. Walker, 109 South Scott street, from Painesville, O.; Mr. and Mrs. W. H. Shelly, 497 Neshannock avenue, from New Kensington, Pa.; Mr. and Mrs. Leysion Coughlin, 806 Junior High street, from Dravosburg, Pa.; Mr. and Mrs. Albert Carlson, 7 East Wallace avenue, from East Cleveland, O.; Mr. and Mrs. Robert H. Hays, 413 Hutcheson street, who formerly lived in Bessemer; and Mr. and Mrs. Archie Briggs, 399 Duquesne avenue, who came from Wildwood, Pa.

Although full reports on the destruction visited upon Bremen have not yet completed, the air ministry said, it is believed that extremely good results were achieved.

The German radio admitted that, in addition to an air attack on a northcoast locality, points in the eastern Reich had been assaulted from the air, indicating that a simultaneous raid was carried out by the Soviet Air Force.

Northern Hungary Bombed
Broadcasts of an official Hungarian communiqué said that several points in northern Hungary were bombed during the night. Berlin reports said that the capital of Budapest itself had been hit.

One Berlin broadcast of a purported official Hungarian statement said that the bombers came from the northeast and could be presumed to have come from Russia.

The Budapest alert was sounded at 10:30 p. m. Hungarian time and lasted until 29 minutes after midnight. The Berlin radio acknowledged that the raids on the Reich had caused damage. The broadcast indicated that a north coast town bore the brunt of the assault but the locality was not given.

Both high explosive bombs and incendiaries were dropped on Germany.

Hungarian announcements did not reveal whether Budapest itself was bombed during the assault on Hungary.

German reports said a few bombs were dropped on the Hungarian capital.

Budapest lies approximately 900 miles from British bomber bases and practically an equal distance from Soviet air fields and would involve a round-trip flight of 1,800 miles by the attacking planes. British craft have negotiated flights on this scale in raids on German-held Gdynia in Poland.

Planes of the Red army air force on occasion have made flights over Balkan areas, reaching the vicinity of Bucharest, Rumania.

It was believed unlikely that the assault planes came from the Middle East since Allied bases in that area at a further distance than either British home airfields or Russian bases.

The last previous heavy attack in Balkin territory was made by American bombers based in the Middle East but at that time they struck only as far north as Rumania's oil fields at Ploesti, considerably southeast of Budapest.

State Motor Police Solve Many Thefts

Twenty Four Year Old R. D. 3 Man Is Under Arrest For Robberies

Pennsylvania Motor police and County Detective Ross today announced the solving of approximately a score of robberies during the past two months with the apprehension of Joseph A. Janis, 24, of New Castle, R. D. 3. He has been charged with burglary and larceny before Alderman J. C. Brice and will receive a hearing later. Most of the articles taken were recovered by the P. M. P.

Some of the places burglarized, the officers report, were as follows: R. L. Boyd cottage, Neshannock township; radio, blankets, silverware, electric clock stolen.

Mrs. Frances Weitzel cottage, Neshannock township; gas pressure gadget, plate-glass mirror, jacket and cross-cut saw stolen.

Fred Green cottage, Neshannock township; electric motors stolen from washing machine.

Frank Nugent cottage, Harbor bridge; water pump motor, radio, phonograph records, blankets stolen.

Charles H. Wellendorf home, Union township; rifle, razor, grease pump, pipe cutting tool, fishing tackle stolen.

James K. Myers cottage, Neshannock township; phonograph records, clothing stolen.

Widowfield place, near Moravia; miscellaneous tools.

Charles Boyer farm, near Moravia; magnet from tractor stolen.

WPA quarry, West Side, dynamite detonator stolen.

Some of the places were entered twice and the Wellendorf home five times.

Many of the articles were allowed by Janis to be left in the open and were ruined by weather, police say.

About 72,000 acres of deer forest lands in Scotland have been taken over by the British Ministry of Agriculture for sheep pasturage, says the Department of Commerce.

NAZI DRIVE ON STALINGRAD IS HALTED FOR TIME

(Continued From Page One)

transports and fully loaded with Nazi troops were sunk as were two gunboats of the escorting Nazi fleet.

Main Drive Stopped
Heavy fighting meanwhile continued at Stalingrad where, according to an official Soviet communiqué, the main German drive has been stemmed although isolated local advances continued.

The burned and desolated steppes in the Stalingrad area now are covered with the wreckage of battle. The Germans still are straining every nerve to make good the offensive that Adolf Hitler has demanded must end in a Nazi victory, but the Soviets are seldom retreating and are fiercely contesting every step of ground.

Enemy casualties have reached appalling figures even for the Nazi army, notoriously wasteful of manpower.

Russian losses also are heavy. The plight of troops on the churning battlefield was revealed in a report that fire so heavy stretched bearers are unable to reach the men who fall in the withering fire. Those whose wounds are light enough to permit any movement at all are crawling to the rear in the hope of finding coverage along the slopes surrounding the city.

Attack Halted
An official communiqué announced that German advances against Stalingrad from the south, west have been halted and all attacks from the northwest immediately above the city had been repulsed.

A Stockholm dispatch quoting Axis reports asserted that the Germans had reached the Volga river both north and south of Stalingrad. German siege guns were reported dumping giant shells into the ruined and flaming city. The most advanced Nazi forces, it was claimed, were storm a point six miles south of the city.

Eighty miles to the northwest of Stalingrad, in the Kietzka region on the west bank of the Don river, determined Russian forces succeeded in pushing the enemy back and improved their positions, the high command said.

The communiqué reported that a new flare-up of fierce fighting occurred in the vicinity of Rzhev, 135 miles northwest of Moscow where the Russian forces have been conducting a four-week-old counter-offensive.

Heavy battles also were reported in the Caucasus. In the mid-Caucasus area the Soviets appeared to be fighting the Nazis to a standstill around Moxdok, 60 miles from the Gromy oil fields, but in the west the Germans gained in their drive on the Black sea naval base of Novorossisk.

Russian troops were said to have dealt several counter-blows to the Axis.

These sources said that there are many dug-in tanks and so much heavy artillery that the Nazis must capture a house after house.

Since the Soviets in this case are fighting with their backs to the wall, an official statement said, "they are faced with the alternative of either capitulating or fighting to the last man. They will certainly not capitulate."

The German high command admitted, meanwhile, that Soviet planes had raided Hungary and eastern Germany during the night, while the RAF blasted Bremen.

Income payments to individuals in the State of New York during 1941 totaled \$13,854 million, greatly in excess of any other state, the Department of Commerce reports.

LABOR is one of the great elements of society—intelligent, manly, independent labor, earning its own wages; supporting capital, education and religion; and helping to maintain the great fabric of the nation.

Now, more than ever, we need this truly American labor, the life character of which Congress recognized when, in 1894, the first Monday in September was made a national holiday, to be known as LABOR DAY.

We join the Community in celebrating this day.

LABOR DAY

1-9-4-2

In this year of world-wide war, Labor has a greater role than ever before in its history. The success of this nation and its allies rests to a great extent upon the cooperation of Labor.

We have confidence that American Labor will do its full part to meet that challenge.

The Parent Problem

By Gary C. Myers, Ph. D.

TEACHING SAFETY OUT-OF-DOORS

Outside your house is a street or highway. You want your little child to stay on your lawn on the sidewalk. How may it be done?

It can be done best if you begin as soon as he goes outdoors to play. Budget your time for the next several weeks so as to be always with him when he is outside. Don't begin the training until you are ready to do it well, so well that he will learn not to step off the curb or leave the lawn unless guarded properly.

When you are ready to train him to be safe alone outdoors, do as follows: Go out on the lawn with the child, preferably when no one else is around. Have him take along a few playthings. First take him near the curb. Tell him just once he must not step into the street.

Immediate Punishment Necessary
If no car is approaching, let him step into the street each time he chooses to do so, but the moment he does, snuck him right then and there. To be effective, it must really hurt. After his punishment, call to his attention his toys.

Next time he is about to step off the curb (with no car approaching), you will be tempted to yell at him or to pull him back. That would be very bad procedure. You should always let him choose and just when he is in the process of stepping down, spank him as before. He should always get instant pain, if you are to get quick and effective results.

Your purpose is not just to keep him out of the street now. You are there and could pull him away. Your purpose is to make him connect pain with stepping off the curb unprotected so the act will no longer be attractive to him but painful, whether you are there or not. You want to teach him to choose to keep himself out of the street.

After one or two such spankings he may not venture into the street again. However, you can't afford to be optimistic. Be right there with him over a period of a few weeks till you are sure his habit of avoiding the street is well established. Even then you will want to have him carefully checked for some weeks.

Solving Parent Problems

Q. What do you consider a good means of keeping girls of high school age balanced emotionally respecting men in uniform?

A. Wholesome mingling for good times among many boys and girls in homes and other desirable places during the earlier teens and now; sympathetic, companionable relationship with their parents; a special list of books on understanding the teen-age boy and girl may be had by writing me at 235 East 45th street, New York City, enclosing a self-addressed envelope with a three-cent stamp on it.

One Man's Opinion

By WALTER KIERNAN

(International News Service Staff Writer)
We are trying to "stabilize" wages with a set of distortion mirrors mounted on rockers.

The latest gag solution is to pin wages to the cost of living.

But the cost of living is unchecked in the most important divisions—farm foods.

So these foods will keep going up and wages will keep going up and what kind of sense does that make?

Leon Henderson has been successful in pegging the price of almost everything but these foods.

There they take the ball from him and quick-kick into the stands.

We're right there on the twenty-yard line, the goal post in sight and foxy goes the game.

The umpire says "from here in we play by louch and the guy with the longest arms scores double."

The boy with the scratch on his nose raised his hand, and answered, "Plous."

A local bird says they do not economize when food prizes go up. They simply eat less for the same money.

"Why in the world didn't you try to keep out of jail?" "I did try and was arrested for resisting an officer."

Olis Skinner and Mrs. Skinner were once traveling on a train from Philadelphia to New York, where Mr. Skinner was to appear in a new play. The actor made use of the two-hour journey by rehearsing his new role, muttering in a low voice and occasionally making a gesture.

When this had gone on for about an hour, a lady sitting in a seat behind him leaned over and touched Mrs. Skinner on the shoulder.

"You have my sympathy, poor woman," she exclaimed. "I have one just like him at home."

"Roosevelt," said Peglar, "is a dirty fighter." Eager voice of the multitude. "Dirtier!"

Dies Probe May Have Been Too Soon
Is Likened To Probe Of Hammie Fish
Both Attacked Communism As Big Foe

By CHARLES P. STEWART

Capital News Columnist

WASHINGTON, Sept. 5.—Texas Congressman Martin Dies' fix is similar to that of New York Congressman Hamilton Fish, to which I had occasion to refer the other day. They both started investigations of conditions that were not ripe to be investigated.

Premature investigation is not the only charge made against Ham Fish. From the purely investigational angle, though, the Dies matter is hotter stuff than anything Ham is involved in. This is because Ham's quiz was finished quite awhile ago and is more or less forgotten, whereas Martin's probe is still progressing. At least, it is not officially ended. It has been a bit quiescent lately, but the Dies committee remains in business.

To hark back a few years, we all remember Communism's outbreak in Russia.

No other "ism" had started then. Consequently, Congressmen Fish, feeling the urge to investigate some un-Americanism in our midst, naturally concentrated on the Communists. They were the only folk who appeared to him to need it at that juncture. Before his inquisition was ended Italian Fascism was beginning to emit a few chips but not loudly enough then to attract Ham's attention. So, finally, having exhausted Communism's possibilities, he quit investigating and devoted himself to other issues.

That Dies Probe
Congressman Dies, however, evidently believed Ham had quit too soon—that plenty of un-American activities remained rampant. In his turn he went after them. But like Ham he failed to recognize any of them but the Communist kind. (Continued On Page Six)

The World and the Mud Puddles

AT LAST WE ATTACK

The Allies have been "letting George do it" for a long time now. Our Solomon Islands raids are the first offensive action, which this nation has taken against the Axis Powers and I think the Solomon Island raids have been planned by Douglas MacArthur. Lord Mountbatten's MacArthur raids upon the continental coast towns are indicative of offensive operations in Europe but "George" represented by China and Russia have been carrying the burden.

The Allies have not been helping Russia very much, neither have they been helping China, but now hardly a day passes but news from China brings word of the success of American bomber and fighter planes both against Japanese-held military centers and against Japanese air forces over China's far-flung battle lines.

We may have been five or ten years overdue in awaking to the fact that China has been a major first line of defense for us against Japan since 1931, and that China, often with little more than the bare fists of her fighters and the incredible fortitude of her people, has single-handedly carried on the war against our enemy, Japan, for four and a half years, with pitifully small help.

But now that, in grim earnest, we are proceeding to strengthen China's armies, and our own safety, with American fighting planes and crews, the Japanese are facing a different foe. Their air losses in engagements with American planes have been exceptionally high, and the military damage inflicted by American bombers upon the Japanese has been extensive.

In the words of a Chungking newspaper, these United States sky dragons "are sowing the seeds of hope in the people in the occupied areas, providing a stimulus for Chinese soldiers at the front and heightening the morale of the people behind the firing line."

COMMON PURPOSE

Akin we're all to stand to care.

Meet rising taxes without flinching.

And daily heavier burdens bear.

And learn the trick of penny pinching.

To folly now we say goodbye.

No more by luxury attended.

We're out for victory, live or die.

And will be till the war is ended!

Work more and play a little less.

And do without what merely pleases.

To put aside our love of dress.

At least until the struggle eases.

To turn away from fad and fuff.

And all adornment merely splendid.

Forgetful of ourselves until

In victory the war is ended.

What does it matter, less or more?

The fate of all alike we're sharing.

A year ago the suit I wore

And last year's suit my neighbor's wearing.

On simpler fare today I dine.

These shoes will serve when they are mended.

My neighbor's lot is much like mine

And will be till the war is ended.

The Basic Trouble

WASHINGTON, Sept. 5.—ACCEPTING as we must, the fact that the war still stretches long and terrible ahead of us, one thing stands out clearly—its cost, in men, money, material and time, is measured by the competency of our war organization in Washington. That is the indispensable yardstick. Affecting and only the lives of millions of Americans men but the outcome of the war itself, the condition of the war machine is of overwhelming importance. The right of the people to expect the utmost competency from it is as clear as their right to information as to where and how it falls short.

NOW NO ONE in the Administration, except for purely propaganda purposes, contends that the war management is nearly as competent as it should be. Those in position to have a detached view know that its inefficiency is almost incredible; that the confusion is beyond description and that, comparable to its size and effort, the results are shockingly small. War, of course, is waste and no one expects hundred per cent efficiency, either abroad or at home. But the blunt truth is that, allowing for the greater magnitude of the present war, the way in which we are managing this one does not compare well with the way we managed the last one—though, Heaven knows, no one contends that that was as well managed as should have been.

WHY? WHY is this war less well managed than the last one? Why is the proportionate waste greater and why are the results less satisfactory? Why are things generally, in the kind of mess that was avoided last time? There are two obvious (Continued On Page Six)

LOOKING AT LIFE

—By Erich Brandeis

In Sydney, Australia, The Daily Telegraph has published an appeal by a lady from Iowa, U. S. A., who wrote as follows:

Please do all you can to prevent marriages between United States soldiers and Australian girls.

Already thousands of American girls face spinsterhood and lives of loneliness because of a shortage of marriageable men occasioned by the war.

It is injurious to the mental and physical health of American womanhood to be permanently frustrated of the desire to marry and create a home.

Didn't you address your letter to the wrong source, dear lady from Iowa?

Since when does Cupid work on the Sydney Daily Telegraph?

Since when has a newspaper any jurisdiction over what is often called LOVE?

Haven't you heard that every county clerk in America's swamped with applications for marriage licenses?

Haven't you read that there never was such a rush to the "I-don't-pronounce-you-man-and-wife" as there is right now?

Why blame it on Australia when it may be you?

Maybe you are using the wrong kind of lipstick and rouge. Maybe you use philosophy instead of the moon for bait.

I assure you that there is nothing the Australian girls have that our own American girls haven't in equal proportions.

Men are not attracted by nationality, it's personality that counts.

Why don't you use the old old prescription for catching your man?

Make him believe he's the greatest thing that ever lived. Make him think that he's the one man you have always pictured as your hero.

Make a fuss over him. Bow him. Cook him a good meal. Sew a button on his coat (even if you have to tear it off first, when he isn't looking). Be a sweetheart, mother and sister to him.

But, at the same time, let him think you are hard to get. Make him jealous.

Soften him up. Then, when he is well done, take him out in a canoe or in the park under a full moon.

He'll either propose or run off to Australia.

If he does, try, try again.

Y. W. C. A. Club Officers Meet

Important Business Club Matters Discussed At Officers Meeting This Week

Y. W. C. A. Business Girls club officers met Thursday evening with their chairman, Elizabeth Vingling, and made plans for their coming club season.

The theme of the evening was the contribution of the Y. W. C. A. Business Girls club could make toward winning the war. They voted wholeheartedly to accept the request of the Regent theatre to sell war bonds and stamps every evening in September from 7 to 10, and the Tri Circle will sell September 24-30.

Jean McCready was elected the new secretary for the Y. W. Business Girls council and Catherine Gauthers was elected treasurer.

There will be a joint winter roast by the business girls at Camp East Brook on Wednesday, September 23. The club presidents will appoint two girls for each club as a committee and plan the winter roast. The committee will meet on Thursday, September 10, in the general secretary's office.

An eastern Pennsylvania Business Girls conference will be held in Pittsburgh on Saturday and Sunday, October 17-18. New Castle has charge of the cover program and the mimeographing of the conference programs.

Because so many of the business club girls are taking defense classes on Tuesday and Thursday, the council voted to recommend that the meetings be held on Wednesday night. This makes it possible for the girls to work in surgical dressings on that night.

A salvage committee for each club was suggested in order to collect and strain grease and dripping in clean metal cans. This was done at the request of the war production board in order to save fats for glycerine for war purposes.

AROUND CITY HALL

Rapid progress is being made in the installation of curbs by the city of New Castle across the Rossena site which is known as Croton avenue extension. At the intersection of South Jefferson street radius curves will be made to afford a better turn for trucks which are expected to use the section when the 422 by-pass between South Jefferson and East Washington street intersecting Butler avenue is paved.

It is anticipated within the near future the utility companies will have removed all of their poles from State street. Some poles have been located north of the north side of the street and lines are being transferred. Old curb will be removed because the street has been widened. A stone wall is being built along Crawford Run on the south side of State street.

Parochial Schools Will Open Tuesday

On Tuesday, September 8, the parochial schools of the city will open, and the fall school term will commence.

It is expected that many new pupils will start school, this term, each being properly vaccinated as the state law requires.

The informalities of the first several days, when books and rooms are being arranged, will soon be over, and the pupils will settle down for routine study, and classes.

MISS SACCO GOING TO BUSINESS SCHOOL

In addition to those previously listed as preparing to leave for colleges and schools this month, of the 1942 graduating class at Senior High School is Miss Anita Sacco, daughter of Mr. and Mrs. Carm Sacco, of Euclid avenue who will enter Robert Morris School of Business at Pittsburgh.

BETHANY LUTHERAN TO START CLASSES

Friday evening, Sept. 11, the first children's catechetical instruction class at the Bethany Lutheran church will commence.

All children of the parish 12 years of age are expected to attend.

Hear Recorded Voice Of Son In Army In Australia

West Side Parents Thrill At Sound Of Son's Voice On Red Cross Record

Mr. and Mrs. Carl B. Stevens, of 606 State street, were thrilled the other day, when a representative of the Lawrence County Chapter, American Red Cross, brought them a recorded message of the voice of their son Carl J. Stevens, from far off Australia, where he is serving with the United States forces.

The record was made from a recent radio broadcast received in this country from Australia. It was played on a borrowed phonograph, but the family thrilled to the sound of their son's voice.

When the broadcast was made, Mr. and Mrs. Stevens received messages from folks as far off as California, telling them that they had heard the message and relayed the information it contained for fear Mr. and Mrs. Stevens might have missed the broadcast.

He stated that he had received over 100 letters but no packages, and extended greetings to his parents and friends. The record will be preserved by Mr. and Mrs. Stevens and when they get home-sick to hear the son's voice, all they have to do is put it on a phonograph and start the motor going.

This is but one of the services the Red Cross is furnishing in its home service work to families of soldiers.

and therefore concentrated on them exclusively.

It was far enough along for him to have sensed Fascism's possibilities by that time, but he failed to do it. No wonder he overlooked Nazism, which was in its babyhood when the Dies inquiry started.

Anyway, it was Communism that he investigated, as Ham Fish had

done, and he raised Cain with it—outdoing Ham, in fact.

With Nazism's development, he ought to have recognized that a poke into Hitlerian propaganda was in order also, but, in that respect, he was slow on the trigger. Not that I think he is the least bit pro-Nazi, but he had been so energetically anti-Communist that apparently he could not get the new idea.

Next, Russia got into the war—against the Nazis.

Surely that was the high sign for Mr. Dies to "lay off" the Communists—at least for the "duration".

He did modify himself. And he did not say anything pro-Axis. He took nothing back, though.

Now the National Federation for Constitutional Liberties accuses him of having "shielded" Axis agents in America.

The truth is that he recently submitted to the government a long list of such alleged agents, stating that his committee had uncovered them and recommending their apprehension.

NFCL Asks Probe

The trouble is that he was, for so long, so conspicuously anti-Communist, that folk like the NFCL cannot get it through their heads that he isn't pro-Axis.

The NFCL has called on the justice department to investigate him.

Far be it from me to suspect the Texan of a drop of anti-Americanism. Yet he started his investigation at a time when he could not foresee what was scheduled to happen. Ham Fish was speedy enough more or less to be forgotten.

Isn't! Isn't! Isn't!

We've got Nazism and Fascism and Communism.

And the Latin American democracies are hollering about Falangism.

Falangism is a European Spanish philosophy that is trying to horn in on this side of the Atlantic. It is a triplet of Nazism and Fascism, but the very opposite of Communism. It is a "fifth column" activity that the southern republics are trying to put an extinguisher on but which worries them somewhat.

Falangism is derived from phalanx—a body of troops or some other compact body.

We shan't hear much about Falangism locally. We do not have enough Spaniards in the United States to give it a foothold. But it may be quite a problem in spots south of the Rio Grande. It won't be in Brazil, though.

Plan Examination For Stenographers

Girls Over 18 Can Secure Well-paid Jobs In Government Offices

Examination for stenographers and typists for work in government offices in Washington, D. C., will take place at the Post Office Building here on Wednesday, September 9, starting at 9 a. m. Edwin Gibbons of the U. S. Civil Service Commission announced today.

These jobs pay \$1440 per year, women over 18 years of age is eligible to take the examination. If successful in passing the examination, they should be prepared to report at Washington as soon as possible.

Candidates must furnish their own typewriters for the examination, it is stated.

The Great Game Of Politics

(Continued From Page Four)

answers. One is that in this war we have failed to profit by the experience of the last one. We have disregarded its lessons and repeated its blunders. Another is that we have not, as in the last war, enlisted the best available brains in the country, irrespective of party. Some of the most capable of our citizens, anxious to make their full contribution, are barred from the war effort because of White House personal or political distaste.

BUT, THERE IS another reason even more basic. It consists of the really absurd, not to say terrifying, overmanning of the war machine.

The extent to which this has been done is unprecedented and indefensible. It is the real reason the organization functions so feebly. It is the real reason it bogs down in so many places. There are in Washington today many thousands of people connected with the Government who should not be here.

There are fifty or sixty thousand men and women on the pay roll who not only have no useful work to do but who interfere with others who have. No corporation, business, factory, office or family, overstaffed as is this machine, could function at all. Conceivably, for example, of a newspaper with one publisher but forty managing editors, four hundred assistant managing editors, eleven hundred city editors, three thousand assistant city editors, a thousand foremen in the composing room, nine hundred night editors and two hundred thousand reporters. Conceivably of a hotel with one manager, eighty-seven assistant managers, three thousand desk clerks, four thousand telephone girls. These are not fantastic comparisons. Actually, they give a fairly accurate picture of the situation as it exists in Washington.

NOT LONG AGO, a wise and patriotic man, who has been here for a long time at considerable sacrifice, was informally conferring with a half a dozen Administration aides. Everybody agreed that things were in a pretty bad state "wording," this man was asked, "that the man, what would you do, if you had the power, to straighten things out?" "Well," was the thoughtful reply, "the first thing I would do would be to go through every department and agency and reduce personnel seventy per cent, not in the interests of economy but solely in the interests of efficiency."

It is significant that after some hesitation everyone in the group agreed with him. The fact is that that remark went to the root of the trouble. No informed man possibly could disagree. Even if no more brains were taken in, if personnel was reduced seventy per cent, efficiency would be increased a hundred per cent.

THERE ARE HERE thousands of men busily undoing the work of other thousands. There are many more thousands whose work exactly duplicates that of as many more thousands—or conflicts with it. There are many more thousands with little or nothing to do who find themselves in contact with similar thousands who have just as little to do but have been here longer. This immense overmanning is the real menace to our safety. It is the real reason the full power and resources of the nation are not being made to count. It is the greatest threat to ultimate victory because it spells impotency.

BUT, WHAT IS to be done about it? Reduction in personnel is the imperative need of the hour. Yet, who is to give the order? That can come from the White House only. And for ten years Mr. Roosevelt's tendency has been strongly toward expansion, never toward contraction. His practice has been never to drop anyone. When changes were forced, new men were put over the old men, but the old men still stayed on the pay roll. This has been carried to a perilous and appalling length. No finer thing could happen than for the President to realize all this and issue the "directives" that would contract this horribly swollen and utterly unmanageable organization into something that could be operated with ordinary human intelligence.

DELEGATION WILL ATTEND SINGING EVENT ON SUNDAY

Sunday, a number of Welsh-American residents of this city and district, will journey to Pittsburgh and take part in a Gymnastic Genu (Welsh singing festival) to be held Sunday afternoon and evening at the Carnegie Music hall.

The director of the singing of Welsh hymns by the congregation will be Dr. D. West Richards of Youngstown, a nephew of Mrs. David West of this city.

Production Is Being Boosted At High Speed

By ELLIOTT HAYES
(U. S. Staff Correspondent)
WASHINGTON, Sept. 5.—Sen. Carl A. Hatch, (D., N. M.), member of a Senate subcommittee that inspected west coast defenses, and war plants, said today that war production is increasing so rapidly that "the country hasn't seen anything yet."

"When every available source of raw material is tapped and the full power of the country developed, we will have an output of weapons, munitions and machines such as has never been seen before," Hatch declared.

He said that the committee visited the Boeing and Douglas aircraft plants and Henry J. Kaiser's west coast shipyards, and was amazed at the work they are doing.

"We entered one airplane plant just as a shift was leaving," Hatch said. "I noted the workers particularly. They were an intelligent, keen looking lot. They included a great number of women. The high spirit and morale was inspiring."

"At the Kaiser shipyards in San Francisco, ships are being turned out so fast it is unbelievable. The man has done an astonishing job. We talked to the workers and they bluntly told us they had a job to do and meant to get it done without any fooling around."

In many of the plants the committee saw women doing the hard physical labor which formerly had been done by men only and were doing it well.

Soil Building Program Changes

Fulkman States That Farmers Will Be Encouraged To Contribute To War Effort

NEW METHODS ARE TO BE ESTABLISHED

Farmers in the 1943 Agriculture Conservation Program will be encouraged to make maximum contributions to agriculture's war effort, according to Dorris L. Fulkman, chairman of the Lawrence County Agricultural Conservation Committee. At the same time, he said, farmers will be encouraged to protect their soil against erosion and other serious damage, particularly that which is likely to be aggravated because of production of soybeans or another such war crop.

The 1934 program contains an entirely new method of establishing the soil building allowance for individual farms. Mr. Fulkman said, explaining that the new indicators of the need and opportunity for soil building practices have seemed to be the presence on farms of livestock or crops that require scarce materials or create unusual erosion hazards. The soil building allowance for a farm is divided into two parts; the first part provides a limit to the quantity of liming materials, superphosphate, and potash that will be paid for or furnished on each individual farm. The second part provides payment for any quantity of other soil building and erosion prevention practices carried out on the farm in accordance with good farming practices.

Only applicable for soil building payments in the program are farms on which, in 1942, there were at least ten acres of cropland, or at least three acres of vegetables, potatoes, tobacco, small fruits, and commercial orchards, or at least 300 pullets ranged, or at least five animal units.

An animal unit is one cow over two years of age, two calves under two years, or five goats, sheep, or lambs. Other bovine animal units are determined by the same age schedule.

The amount of the soil building

allowance, will be the sum of three parts: first, \$2.50 per animal, if there were five; or \$2.50 per 100 pullets ranged in 1942, if at least 300 pullets were ranged, but shall not exceed, \$5 per acre; second, forty cents per acre of cropland in excess of five acres under item one; and third, eighty cents per acre of vegetables, etc.

Soil building practices of other years have been changed by eliminating all those that do not make a direct contribution to war objectives, except in the case of reforestation.

Lincoln School Group Is Ready For Its Reunion

Pupils Who Attended Prior To 1900 Will Gather Next Week

Former pupils of the Lincoln school, who attended between the time the school was opened in 1880 and 1900, are all ready for their annual gathering, which will take place in the school on Long avenue Thursday evening, September 10. President Harry J. Clark announced today.

The committees appointed by Mr. Clark have been busy during recent weeks, getting plans for the gathering shaped up, and indications point to one of the finest reunions yet held.

It is expected that a record number will be present to greet their old teachers and classmates on this occasion. Assembly will be called at 7 o'clock.

Only Five Clear Days In August

Rainfall Is Slightly Above Normal, Temperature A Little Below

August was one of the most unusual on record as far as weather conditions are concerned, only five clear days occurring. There were 22 partly cloudy and four completely cloudy. The average temperature was three-tenths of a degree below normal, and the precipitation, 67 inches above normal. The mean maximum temperature was 81.1 degrees, the mean minimum, 58.2 degrees, and the mean or average, 70.2 degrees. The highest was 89 degrees on the 2nd, 3rd and 20th, while the minimum was 40 degrees on the 25th.

The total precipitation for the month was 4.15 inches, the greatest in 24 hours being 1.17 inches on the ninth. There were 12 days with 0.1 inches or more of precipitation. In August of 1941, the precipitation was 1.15 inches below normal, while the temperature was 4 degrees above normal. The highest temperature in August 1941 was 94 degrees and the lowest was 40 degrees, the same as this year. The greatest rainfall in 24 hours was only .64 inches.

Fewer Fatalities Certain In Nation Over Labor Day

(International News Service)
HARTFORD, Conn., Sept. 5.—Statistics of Travelers Insurance company today estimated that 125 additional persons will be alive on September 8 because there will be at least 33 per cent fewer highway fatalities over Labor Day week-end this year than last year.

The estimate is in line with the steady downturn in automobile accidents since February and has been greatly accelerated by gasoline and tire rationing.

However, the statistics estimate that 371 persons, 80 per cent of them men, will be killed by cars on September 5, 6 and 7 and 14,500 others will be injured during the holiday.

'Tis Small World Soldier Discovers

(International News Service)
WETHERSFIELD, Conn., Sept. 5.—A soldier from Wethersfield, Conn., today was convinced it is a small world we live in.

Dropping into a restaurant where in Australia he was asked by the proprietor, "Well, son, what part of the states do you come from?"

"From a town called Wethersfield in the state of Connecticut," was the reply.

"Say, I had a buddy in the last war who came from there," the proprietor said. "His name was Fred Hale."

"Why, he's my uncle," replied Corporal Hale.

Chief Shipfitter Ritchie explained that men between the ages of 17 and 50 are being accepted for duty in the U. S. fleet and can apply at his office.

TWO INJURED IN HEAD-ON COLLISION

Two men were treated in the Jameson Memorial hospital, suffering from injuries sustained when their cars collided head-on at the Edinburg bridge on Route 224 about 1:30 o'clock this morning. They were later discharged.

They are Walter Hemphill of 915 West Washington street, who received chest injuries and abrasions of the legs, and H. H. Hanna of R. F. D. No. 2, Harbor road, who suffered abrasions of the head and injuries of the nose and ankle. The name of the driver of Hanna's car has not yet been learned but the investigation has not yet been concluded.

Rev. R. Griswold TO PREACH SUNDAY

Rev. Robert M. Griswold, rector of Trinity Episcopal church, will preach the Sunday morning service at the church, having returned home from an extended vacation.

Communion will be observed at 8 and 11 o'clock, with Rev. Griswold in charge.

Labor for Victory

FARMING, industry and transportation employ millions of American men and women working day and night for Victory. Through the power lines, supplying electricity, flows the life blood of war production. Farm lighting and machinery bring modern speed and efficiency to this oldest labor institution. Power is needed to drive machines, to help build planes, guns and tanks. To transportation of today it gives the wings of Mercury. And it lights the homes of

America's workers, operates the radio and appliances that mean convenience and education.

To supply this power is the responsibility given to us. To handle our job we rely upon the resourcefulness, ingenuity and operating and technical experience of our employees. Thousands of specially trained utility men and women working day and night, make sure the life lines of victory are kept open. They know their jobs, they know their responsibility, and they will not fail.

This Year College is a Privilege and a Responsibility

America deserves the loyal support of every citizen who enjoys her privileges. This applies to workers in industry and to students in college as well as to men in the armed forces.

Young men and women just out of high school should start their college work immediately and waste no time in preparing for whatever service they may be called upon to perform.

Uncle Sam needs hundreds of specialists in many fields. Scientists, draftsmen, engineers, accountants, stenographers, and other workers vitally important to the war effort of America must be trained in the shortest possible time. Women will be called upon to serve in many capacities where only men have been used in the past. This will mean specialized training in work which is unfamiliar to them.

YOUNGSTOWN COLLEGE HAS GEARED HER PROGRAM TO THESE PRESSING WAR NEEDS—making it possible for students to complete the four-year college course in three years.

The Government has set up Army, Navy, and Marine Reserve plans through which men students may enroll for college and be reasonably sure of completing their courses before being called to active duty with the armed forces. Youngstown College is participating in this plan.

Technical and scientific courses especially needed to train men and women for important war work are offered in both day and evening classes.

The employed student may adjust his classes to his working schedule, carrying either day or evening classes or a combination of both.

Complete courses are available in art, biology, business administration, business and secretarial training, chemistry, engineering, law, music, premedical sciences, social science, and teaching. Liberal arts courses offer majors in economics, English, modern languages, history, mathematics, physics, psychology, and social science.

Youngstown College is accredited by the State Department of Education, the Ohio League of Law Colleges, and the Ohio College Association—is a member of the Association of American Colleges—and grants the degrees: Bachelor of Arts Bachelor of Science, Bachelor of Laws, Bachelor of Music, and Bachelor of Science in Education.

The cost for a full school year for tuition, fees, and textbooks is approximately \$230. A part-time schedule costs proportionately.

NEW CASTLE NEWS

PURDUE BEGINS—Head Coach Elmer Burnham, right, of Purdue, talks to his gridders at Lafayette, Ind.

SPORTS WORLD RAMBLINGS

What's new in sports today?

From now on, Joe Hartman will not have occasion to use aspirin. After serving as a high school football-basketball coach for two decades, the prominent local sportsman, who has been exclusively devoted to his duties attached to serving as principal of two schools.

Hartman applied for a position in the New Castle school system several months ago. Named as head of the Arthur McGill and Highland schools, he resigned as athletic director at Franklin, Pa. Previously, he coached at Grove City.

Does he expect to drift back into the coaching ranks? This is what he says: "I have no more coaching aspirations. From now on I am going to devote my time to the education and development of the athletic teams."

One of the greatest athletes in the archives of New Castle high, Hartman enjoyed an athletic career rich with memorable experiences and events. Exceedingly talented on the baseball field, Hartman reached the International League.

While hurrying in the I. L., Joe, modest, neat in manner and speech, was and still is a favorite with an exceptionally long list of stars across the sports pages. He roomed with Johnny Allen, now starring with Brooklyn.

George Selkirk, serving a last ditch with the New York Yankees, is one of his most cherished friends. Joe Hauser, who smashed out 67 homers with Baltimore, is a bosom pal. These represent only a few of the big timers Hartman knows intimately.

Odds 'n Ends—"Hank" Borow, the New York Yankee flinging star, is of Polish descent. "Bill" Lee, a Chicago Cub pitcher, is using a new sidearm curve. The way he's been tossing lately, he'd better try something new.

Zeke Bonura, ex-big league favorite, is a corporal at Camp Shelby. Close to 10,000 soldiers will be admitted free to watch the Washington-Green Bay exhibition grid game in Baltimore on Labor Day.

SWIHART IS INDIANA FIRST GRID CASUALTY
(International News Service)
BLOOMINGTON, Ind., Sept. 5.—Dale Swihart, a letterman, today was Indiana's first major football casualty of the season.
In covering a loose ball five minutes after the Hoosiers launched their first practice session, Swihart broke his left wrist just an inch above a fracture he suffered last year. Swihart set the bone himself on the field. Last year he broke his shoulder.

FAIR OR FOUL
By LAWTON CARVER
INS Sports Editor

(EDITOR'S NOTE: Lawton Carver is on his vacation. Today's contribution by Jack Mahon, noted INS writer.)
By JACK MAHON
(International News Service)
NEW YORK, Sept. 5.—Any of you fellows who have a racketball interest in having Whirlaway drop around and run for the customers?
If so, the line will form on the right and walk, please do not run, with your offers to Trainer Ben Jones, boss of the Calumet stable and trainer of the long-tailed wonder.

This is to inform you that except for his next engagement in the mile and seventy yards, \$25,000 added Narragansett special Sept. 12, Mr. Longgatt has no particular stakes on his schedule and definitely has no intention of competing in the fall handicap races in New York.
Mr. Jones made this plain in no uncertain language before entraining for Providence, R. I. to get his money-winning champion in shape for his next test.

Won't Run In N. Y.
"I won't have anything to say about Whirlaway's fall schedule until after the special," said Ben. "But I don't intend to run him in New York. I can't as long as they continue to pile the weight on him as they have. There is no use in asking the horse to carry 134 pounds when some of the other good ones get in with only 100."
"He was beaten by Tola Rose with 103 pounds up in the Butler at Empire City, when he carried 130. They still asked him to carry 134 in one of the opening handicaps at Saratoga and then gave the same weight again for the Aqueduct Handicap." "I don't mind these putting weight on Whirlaway," continued Ben, "but I think they should be reasonable otherwise it's unfair to my horse. They should rate the weights to make it a horse race, not just to beat Whirlaway."

Jones cleared up another point concerning Whirlaway's narrow escape in the Trenton Handicap at Garden State Park. "I think he was pressed to win," admitted Ben, "contradicting many of the fans and experts who thought Whirlaway finished very fresh."
"He made a bad turn at the head of the stretch," explained Jones, "and Jockey Eads was excited. No, the colt didn't win easily, he hadn't left. But what many of you fellows don't realize is that the colt had a lot of trouble with his eye. He got something in it out in Chicago and it really bothered him quite a bit. I even had to break up his training for a couple of days. He'll be better though from now on."

To Use Arcaro
Asked who would ride Whirlaway in the future, Jones indicated he would use Eddie Arcaro when available and said he had "a couple of other good boys in mind in case Eddie had contract obligations." George (The Iceman) Woolfe is one of them but Ben wouldn't reveal the other's identity.
Ben made it plain that he regarded Eads as a "fine young race rider," but believed it best for the boy if someone else rode Whirlaway. "I think that one colt just as the best of him," he explained.

'Cane' Gridders Back From Camp

Squad Plays "Real" Game Before Breaking Camp; Williams Stars Friday

DUNKING RITUALS HELD LAST NIGHT

After participating in an honest-to-goodness regulation inter-squad battle this morning, New Castle high's gridiron battalion ate a healthy dinner and sped homeward following a successful one week pre-season training period at Muddy Creek Falls.

No holds were barred as the determined athletes "showed off" what they have learned in camp this week. Since the score is secondary, we'll skip it.

The spirit, drive, precision and teamwork stood out as bright as the morning sun.

As the last moleskin was carted away and the boys took a farewell dip, Coach Phil Bridenbaugh smiled and remarked:

"A nice group of boys. Cooperative, willing to learn and hard workers. I'm proud of them. We may lose this season but I'm sure we will not be out-fought."

Friday afternoon's session was one of the stiffest of the week. Out of the p.m. scrimmage emerged one name—Roscoe Williams, ex-Ben Franklin junior high star.

Gains Repeatedly
The colored star, tiny but mighty, had the second stringers run ragged as he tore off chunky gains repeatedly.

Only lacking in experience, the colored athlete is tickled to see a lot of action. His showing yesterday highlighted the afternoon session.

The first team trucked the pigskin across the second team's goal line five times. Williams and Bobby Lee were chief ground gainers.

The line performed impressively, yielding ground, very little of it, too, grudgingly.

Zubkowsky, Joseph, Genkiner, Deegan, Burris, Gunn, Sanfilippo and Razzano, who was idle Thursday, saw most of the action up front.

Russ Currie, speediest member of the squad, watched most of the action due to a minor leg injury. Bob Lee, Williams, Pete Tedesco, Knight and Ted Lash were in the varsity ball hugging division most of the afternoon.

Last night's program was featured by the annual "dunking ceremonies" an event staged annually ever since New Castle high opened the Falls camp.

All first year men are tossed into Muddy Creek Falls—clothes and all. About 20 kids got dunked.

With the grid opener carded next Friday, drills will be resumed at the stadium.

The New York Giants, Cincinnati Reds, Boston Braves and Philadelphia Phils do not use No. 13 in numbering their players.

Youngstown Plays Moose Club Sunday

All-Stars Loaded With Crack Players; Game On Marshall Field At 3 O'Clock

Youngstown's top sandlotters, billed as the All-Stars, unfurl their technique against the Moose club Sunday afternoon at 3 o'clock on Marshall field, Scott street.

Heading the list is Paul "Dizzy" McCullough, local sandlotter, who will pitch against the Moose. Mike Annarella and "Ducky" Annarella, two localities, will be in the Ohio lineup too. The remainder of the squad is comprised of crack performers.

Mackos, Maloney and McPhee, who belong to the St. Louis Browns, will see action with the Youngstowners.

Elz Ridenbaugh will use his strong lineup in hopes of spanking the visitors.

A large crowd is expected to witness the attraction.

HERE AND THERE IN SPORTS LAND

Twenty thousand spectators are expected tonight at the Steelers' Chi Bears grid game in Pittsburgh.

Dickinson opens football drills at Carlisle, September 21. Sergeant Ben Kish, former Pitt football star, is in a Miami Beach army hospital with a leg injury.

Duquesne star lineman, has been ordered to report to the naval academy for three years, will coach Penn's 150-pound team. He replaces W. Austin Bishop, a lieutenant at Camp Lee.

Tarentum, western Pennsylvania representative, and Coplay, eastern Pennsylvania representative, will clash in the first of three games today for the American Legion baseball championship of the state.

Russell Baxter will be idle Monday night, no opponent having been secured for him by Millvale boxing promoter, Jake Mintz.

Sportsmen Gather Tuesday Evening

Secretary H. N. Drio today announced that members of the Lawrence County Sportsmen's association will stage their first meeting of the autumn season on Tuesday evening at 8 o'clock in the Veterans of Foreign War hall, East Washington street.

At the same time, Drio announced that 1,200 black bass, to be stocked in the vicinity of Volant, Neshaunock Falls, East Brook station, will arrive at New Wilmington post office on Thursday morning at 10:30 o'clock.

Sportsmen who have some spare time are requested to help with the stocking.

TENNESSEE LOSES STANDOUT GRIDDER

(International News Service)
KNOXVILLE, Tenn., Sept. 5.—University of Tennessee's football aggregation today lost a tailback prospect, but gained a coach.

It was announced that Bernard "Bunzy" O'Neill, star basketball guard and baseball pitcher, had withdrawn from the varsity squad and joined the coaching staff. He will coach freshman basketball and assist in football coaching.

The Pittsburgh, Pa., player was eligible for another season of competition. An ailing knee was said to be responsible for the action.

Eddie Cowden Twirls No-Hit, No-Run Contest

Dewey Star Blanks Rex, 2-0, On Lee Avenue Field; Wampum Wins, 8-1

Another baseball dream came true last night on Lee avenue field, where Eddie "Ace" Cowden twirled a no-hit, no-run game as the Deweys blanked the Rex nine, 2-0, in a City-County league battle.

In "twirling up his tenth victory of the season, Cowden was invincible, tossing everything according to the book. Today he is receiving congratulations from all ends.

Jack Adams was the hitting star, blasting a timely triple in the sixth to win the game.

Score by innings: R H E
Deweys 000 002 0-2 5 0
Rex 000 000 0-0 0 1

Batteries: Deweys, Cowden and N. Lucas and B. Nelson; Rex, Bechtel, Powell and O'Leary.

Wampum Winner, 8-1
Socking out 10 hits, Wampum shellacked the St. Margaret aggregation, 8-1.

Secretary Nick Lucas today announced that Tex DeLeon, of Florence street, has been awarded the \$25 Defense Bond given away by the Dewey A. C. team.

Titans Have Five Games At Home

(Special To The News)
NEW WILMINGTON, Sept. 5.—General admission price for Westminster college home football games of the 1942 season has been set at 75 cents, including tax, according to an announcement by Ross Ellis, business manager.

The Blue and White gridders have scheduled five games to be played on the Titan field here. They are: Edinboro, Sept. 19; Slippery Rock, Sept. 26; Hiram (homecoming), Oct. 10; and Bethany, Nov. 14.

The home game with the Tartans of Carnegie Tech is still tentatively scheduled for the New Castle high school stadium on October 3. Last year Westminster surprised Tech with a 19-13 upset at Pittsburgh.

Pelai Is Kayoed; Tom Yarosz Wins

(International News Service)
DETROIT, Sept. 5.—Jimmy Edgar, flashy Detroit welterweight today held his 17th victory in 18 starts by virtue of a 10-round knockout of Ernie Pelai, Beaver Falls, Pa., at Olympia last night.

Jimmy dropped Pelai for a nine count early in the tenth round and then the Pennsylvania lad wilted under a right to the head and slumped to the canvas for the count.

In the other feature bout of Promoter Nick Londe's card, Tommy Yarosz, Monaca, Pa., a middleweight, kayoed Curley Denton, Cincinnati, in four rounds.

The fight drew 3,701 spectators who paid \$5.20.

"Bill" Rariden Well Known Here

William A. Rariden, star major league catcher during the first World War and who passed away recently in his Bedford, Ind., home, was well known here.

The prominent athlete played in the old O. & P. league and consequently gained popularity around the district. During his big league days, Rariden, who was 54 when he died, set a record for the most chances accepted in one season, 947, in 1915. He also had the most assists in one season, 236, the same year.

This is to inform you that except for his next engagement in the mile and seventy yards, \$25,000 added Narragansett special Sept. 12, Mr. Longgatt has no particular stakes on his schedule and definitely has no intention of competing in the fall handicap races in New York.

Mr. Jones made this plain in no uncertain language before entraining for Providence, R. I. to get his money-winning champion in shape for his next test.

Won't Run In N. Y.
"I won't have anything to say about Whirlaway's fall schedule until after the special," said Ben. "But I don't intend to run him in New York. I can't as long as they continue to pile the weight on him as they have. There is no use in asking the horse to carry 134 pounds when some of the other good ones get in with only 100."

"He was beaten by Tola Rose with 103 pounds up in the Butler at Empire City, when he carried 130. They still asked him to carry 134 in one of the opening handicaps at Saratoga and then gave the same weight again for the Aqueduct Handicap."

"I don't mind these putting weight on Whirlaway," continued Ben, "but I think they should be reasonable otherwise it's unfair to my horse. They should rate the weights to make it a horse race, not just to beat Whirlaway."

Mrs. T. E. Nolan West Penn Queen

New Castle Star Captures Championship Third Time In Four Years

BEATS PENN STATE CO-ED ON FRIDAY

(International News Service)
PITTSBURGH, Sept. 5.—For the third time in four years, Mrs. T. E. Nolan, of the New Castle Field club, was the western Pennsylvania women's golf champion today. She won the title again yesterday by outplaying Janet Fleming, of State College, 6 and 5.

For Mrs. Nolan the championship represented a major comeback from an accident that incapacitated her last year and prevented her from defending the crown she had annexed in 1940. She won the title in 1939 also.

She equaled the mark set by Mrs. J. E. Rose, of Allegheny, who held the title in 1924, 1926 and 1927. Her experience and steadiness were too much for the Penn State co-ed, who ran into difficulty on all of her shots on the heavy course.

The loser's father is graduate manager of athletics at Penn State.

UNCLE SAM TAKES DUKE STAR GRIDDER

(International News Service)
PITTSBURGH, Sept. 5.—Duquesne university lost another one of its football stars to Uncle Sam today. Lou Roztkiewicz, 195-pound senior tackle from nearby Natrona, Pa., was in uniform after the Navy ordered him to report to Slippery Rock State Teachers college next Tuesday for primary flight training.

In covering a loose ball five minutes after the Hoosiers launched their first practice session, Swihart broke his left wrist just an inch above a fracture he suffered last year. Swihart set the bone himself on the field. Last year he broke his shoulder.

FAMOUS HOPPS
Wally Hopp, brother of John, of the Cardinals, and Harry, a Rose Bowl performer in 1941, likely will be Nebraska's fullback this fall.

NEW YORK, Sept. 5.—Any of you fellows who have a racketball interest in having Whirlaway drop around and run for the customers?

If so, the line will form on the right and walk, please do not run, with your offers to Trainer Ben Jones, boss of the Calumet stable and trainer of the long-tailed wonder.

This is to inform you that except for his next engagement in the mile and seventy yards, \$25,000 added Narragansett special Sept. 12, Mr. Longgatt has no particular stakes on his schedule and definitely has no intention of competing in the fall handicap races in New York.

"He made a bad turn at the head of the stretch," explained Jones, "and Jockey Eads was excited. No, the colt didn't win easily, he hadn't left. But what many of you fellows don't realize is that the colt had a lot of trouble with his eye. He got something in it out in Chicago and it really bothered him quite a bit. I even had to break up his training for a couple of days. He'll be better though from now on."

Bears-Steelers To Play Tonight

(International News Service)
PITTSBURGH, Sept. 5.—Pro football makes it 42 debut in Pittsburgh tonight as the Pittsburgh Steelers and the mighty Chicago Bears tangle in an exhibition game. With 20,000 fans expected to turn out for the contest, part of the net proceeds will be donated to the Army-Navy relief fund.

SWIHART IS INDIANA FIRST GRID CASUALTY

(International News Service)
BLOOMINGTON, Ind., Sept. 5.—Dale Swihart, a letterman, today was Indiana's first major football casualty of the season.

In covering a loose ball five minutes after the Hoosiers launched their first practice session, Swihart broke his left wrist just an inch above a fracture he suffered last year. Swihart set the bone himself on the field. Last year he broke his shoulder.

Majors Whip Moose Again, 4-2

Slovaks And Ellwood City Now Trail Moose Club By Mere Half Game

"Newsboy" Majors, clever curve twister, again was a hero last night. The youthful southpaw whizz confidently stepped on the knoll for the Elders on Marshall field and promptly proceeded to flatten the City league leading Moose club, 4-2.

Thanks to Majors' second wind over the leaders, the Slovaks and Ellwood City Slovaks today trail the Moose by a mere half game.

Win In Sixth
Majors, who shut out the first half kings recently, turned in a four-hitter. Trailing 2-1 in the sixth, the Elders pushed across three runs and Majors breezed in. The twirler even got a single.

A Orlando pumped out two singles for the Moose. Frigone and Hahn batted doubles.

The Moose has won 12 out of 17 while the Slovaks and Slovaks sport 12 wins against six setbacks.

W. P. B. Plans For Synthetic Rubber Supply

(International News Service)
WASHINGTON, Sept. 5.—The War Production Board has launched a program to produce 877,000 tons of synthetic rubber a year, it was learned today as the War Production Board committee investigating the rubber and gasoline situation prepared to place its report on President Roosevelt's desk in the next few days.

While normal peacetime consumption of rubber is only 766,000 tons annually, the fact that the government has embarked on the 877,000 tons yearly production plan does not foreshadow immediate relief for motor car owners facing tire shortages.

West Point Will Graduate First Air Corps Class

(International News Service)
WASHINGTON, Sept. 5.—West Point will graduate in January its first air officers and pilots in its history, the senate military affairs committee disclosed today.

At the same time, the committee revealed that it will recommend passage of a bill to compress the four-year West Point course into three years to meet the army's demand for officers.

To establish the three-year program the present 450 senior classmen will graduate in January and those who are now in their third year will follow intensified courses and be graduated next June.

Daily Dozen

(From the Medical Society of the State of Pennsylvania)

Death is common to all people. The next most common condition is coryza—the common cold.

That's what makes the common cold common.

As with death, there is no preventive for the common cold.

There is sure prevention of smallpox, diphtheria, typhoid.

All methods used to prevent the common cold fall far short.

Sudden changes in temperature and humidity bring on colds.

Hence the prevalence of colds during winter months.

Most often one "catches" a cold from another.

However, some develop a cold within themselves.

With causative agent present, the body weakened, a cold follows.

Avoid infection, build immunity by keeping the body fit.

Mechanics And Radiomen Are Needed In Army

Men Experienced In Use Of Tools Needed In Air Corps

Experienced mechanics and radiomen who want to serve in the United States Army Air Forces will be put right to work upon planes and equipment immediately upon enlistment. Sergeant John Bilpuch, in charge of Army recruiting in this city, said today.

"The Air Forces need, right now, all the men they can get who are experienced in the use of hand tools—who can go to work maintaining and repairing airplanes, engines, instruments, guns and equipment," the sergeant explained. "They should be capable of becoming non-commissioned officer specialists, and some of them will be trained for air crews, thus earning an added fifty percent of their base pay for flying duty."

"Men who have been mechanics of any kind—household appliance servicemen, armorers or gunsmiths, automobile mechanics, bench assemblers, bicycle repairmen, electricians, jewelers, locksmiths, radio operators or mechanics including amateurs, metalworkers, telegraphers, welders, watchmakers and repairmen, farm mechanics, and others of similar trades and crafts—should be able to qualify."

"Of course," Sergeant Bilpuch continued, "We don't expect a man who has been, say, an electric refrigerator serviceman to go right to work on an airplane engine and fix it. He'll have to be given some sort of training. But he'll learn the difference between an electric refrigerator and an airplane motor by fixing an airplane motor that needs fixing, under expert supervision."

Good Opportunity
The Army Air Force, he pointed out, need great numbers of aircraft mechanics, radiomen, armorers, welders and metalworkers. Mechanics inspect and repair airplanes; radiomen operate, adjust and repair various types of transmitting and receiving equipment; armorers inspect

and repair machine guns, cannon, cameras, bomb racks, sights and synchronizers; welders work on all types of parts and equipment, and metalworkers cut and form sheet metal, using hand tools and metal-working machinery.

"I think this opportunity is one many skilled men have been looking for," the sergeant concluded. "In this way, mechanics and radiomen can get the sort of service they like at the jobs most nearly like those they have had in civilian life, with chances for rapid advancement. The only requirements are that a man be between 18 and 44 years old, and able to pass a simple test to determine his ability to do the required work and to pass the physical examination for field service. He may be married or single."

"If they want further information, tell them to come to me. The Air Forces need them, and it's my job to see that they know it."

Fire 160 Who Loafed On Job

(International News Service)
SOUTH PORTLAND, Me., Sept. 5.—Accused of loafing on the job, 160 workers from two shipyards were fired and their names were submitted Friday to draft boards.

Discharges were handed out after the men failed to satisfy company officials with explanations for their repeated absence from work, which has slowed ship production at the plants.

A long threatened edict to either "work or fight" had been issued by the companies. Last Monday a weeding-out process began, directed at uprooting all "chronic absentees."

Yard officials said they would continue a department-by-department study of back payrolls and daily time slips to determine who has "made a practice of being absent."

Physician May Forfeit His Tires

(International News Service)
ST. LOUIS, Sept. 5.—A St. Louis physician may be in for a surprise when he reaches Salt Lake City, Utah.

The St. Louis tire rationing board said today that the physician, whose name was not disclosed, obtained four new tires and left on a vacation trip to Utah.

The Salt Lake City tire rationing board has been requested to intercept the doctor and confiscate his tires—if they are the new ones.

"The physician was allowed those tires to call on patients and for nothing else," said Matt Morse, a member of the St. Louis tire rationing board.

Lieut. Wm. Chip On Active Duty

Completes Artillery Course In Marine School At Quantico, Va.

LIEUT. WM. C. CHIP

QUANTICO, Va., Sept. 5.—Second Lieutenant William C. Chip, son of George E. Chip, 108 Phillips Place, New Castle, Pa., has been ordered to duty with a combat organization of the U. S. Marine corps, having recently completed the stiff artillery course here in the Marine Corps school.

Li. Chip is a graduate of the U. S. Naval Academy, June 19, 1942. He studied electrical engineering and received a B. S. degree.

Some Good News On Production

(International News Service)
MORE BOMBERS.—The Lockheed Aircraft corporation and its subsidiary, the Vega Aircraft corporation, manufacturing Flying Fortresses and Vega bombers, have produced more planes in the month of July than were made during the entire year of 1940.

MORE WARSHIPS.—Four warships will be launched on Labor Day in shipyards in South Carolina, Georgia and Florida. In addition, keels of four others will be laid in the combined ceremonies.

MORE STEEL.—Republic Steel corporation announced that it has broken all production records for steel ingots and pig iron at its plants during the first eight months of this year.

STILL MORE WARPLANES.—American Aviation corporation is building a new plant at Jamestown, N. Y., which will turn out plywood planes and gliders.

Hints On Etiquette

Keep your chin up and be cheerful even when things look black for the sake of others as well as yourself. You are not alone in your depression, you know. Everyone is trying to keep busy and cheerful these days.

U. S. Spending \$185,000,000 On War Every Day

(International News Service)
RIO DE JANEIRO, Sept. 5.—The United States now is spending \$185,000,000 daily on its war program, Nelson Rockefeller, coordinator of inter-American affairs, told a commercial federation luncheon today.

Rockefeller reminded Brazilian industrialists that greater sacrifices are needed now that Brazil has entered the war against the Axis. He also urged faster moves toward war mobilization.

There is no speedy relief in sight for the shipping shortage in Latin America owing to the greater demands of the fighting fronts, Rockefeller said.

"Once again," he told his listeners, "Brazil and the United States have joined forces to meet the gravest menace to our hemisphere, with total victory our conviction and aim."

Grove City Man In Plane Crash
(Special To The News)
GROVE CITY, Pa., Sept. 5.—Injured when the plane in which he was serving as instructor to a student pilot crashed at the Rochester, Minn., airport, William K. Daugherty, Grove City, was removed to the Mayo hospital at Rochester. He is in a serious condition there, suffering from concussion, a fractured arm, three fractures of the leg and a fractured pelvis.
His parents, Mr. and Mrs. F. W. Daugherty, left for Rochester immediately upon receipt of the news. The injured man's wife, the former Wilma Hartley, is with him.

Weather Soon To Favor U. S. In Aleutians

(International News Service)

SAN FRANCISCO, Sept. 5.—Weather conditions which thus far have favored Japanese occupation of the Aleutians will soon improve so that American forces can take the offensive, Father Bernard Hubbard, famed "glacier priest," declared today after returning from his 16th Alaskan expedition.

"Our Army and Navy," the priest said, "are going to show the Japanese that their occupation of Kiska was more trouble than it was worth. For them, it is good only for small planes and as a submarine refueling base, and the Navy appears to be taking care of that."

The Japanese invaders, however, have a distinct advantage in the Kiska area at the present time due to the weather, Father Hubbard explained.

"Whoever is on the Bering Sea side of Siberia knows what kind of weather is coming up Storms in that area originate along the China coast, move up through Russia's Kamchatka Peninsula and across the Aleutians."

He added that the Japanese have been able to obtain footholds in Kamchatka through fishing permits granted by Russia. This enabled the Nips to set up canneries and other installations, among the weather stations.

"The Japs have established their own 'Guam' in the Aleutians and have cut down by 2,000 miles the distance between Tokyo and Seattle," Father Hubbard said. "In Kiska they have the finest harbor in that area and they undoubtedly intend to use it as a submarine base against our shipping in the Pacific."

Westminster Grad Lost At Sea; Gives College Apparatus

(Special To The News)
NEW WILMINGTON, Sept. 5.—A Westminster graduate who remained on his job as a radio operator and went down with his sinking ship has left some valuable chemical apparatus to the college.

The man, Charles Mordaunt Vickerman, of Mercer, who received his bachelor of science degree from Westminster in 1922, lost his life in line of duty on a freight liner sunk off the eastern coast last May. Unwilling to leave his radio until the last minute, Vickerman was unable to free himself as the ship started to go under the water and was carried down as it sank.

His sister, Mrs. James C. Davis, 639 Fruit avenue, Farrell, has given his chemical apparatus to the college science laboratories. Intending at one time to set up a small testing laboratory, Vickerman had purchased several hundred dollars' worth of valuable general laboratory equipment, now scarce because of priorities, and all usable by the college department of chemistry.

WARREN INDUSTRIAL LEADER KILLED IN CRASH NEAR AKRON
AKRON, O., Sept. 5.—Howard J. Kaighin, about 50, of Warren, in Trumbull county, one of that city's outstanding industrialists, was killed in an automobile accident on Route 176, near the Summit-Cuyahoga county line last night.

B. N. MacGregor, 48, general manager of the Packard electric division of General Motors Corp., of Warren, was injured.

Mr. Kaighin was dead upon arriving at Peoples hospital, where MacGregor, although seriously injured, was said to be in a fair condition.

Grove City Man In Plane Crash
(Special To The News)
GROVE CITY, Pa., Sept. 5.—Injured when the plane in which he was serving as instructor to a student pilot crashed at the Rochester, Minn., airport, William K. Daugherty, Grove City, was removed to the Mayo hospital at Rochester. He is in a serious condition there, suffering from concussion, a fractured arm, three fractures of the leg and a fractured pelvis.
His parents, Mr. and Mrs. F. W. Daugherty, left for Rochester immediately upon receipt of the news. The injured man's wife, the former Wilma Hartley, is with him.
